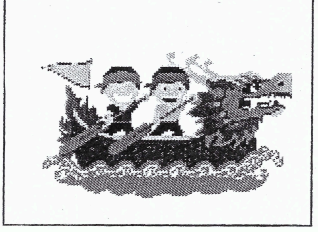
Dear Patron, thank you so much for purchasing 端午節, the latest game from ITG-Soft. 端午節 is part of our limited series called ***Holiday Soft***. These special commemorative cartridge pieces are only available for purchase through the holiday, afterward the game will never be made again. As well as being a play thing, these special software pieces can also be used to help us commemorate and remember the holiday each year. 端午節 is the first game from this series. Please pay attention for our upcoming offerings for *Hungry Ghost Night*, *Moon Fest*, and of course the new year.



Sincerity thanks for supporting us.
